01

Executive Overview & Statutory Firewall

Operational Rationale

The **Dedicated Non-GST Billing Station** provides an isolated environment for managing physical trade transactions that operate outside the statutory GST tax regime under Indian agricultural marketing guidelines.

Core Use Cases

- **Agricultural Mandi Procurement:** Small, unregistered farmers selling raw groundnut pods, sesame seeds, and copra directly to the mill are legally exempt from GST registration. The Non-GST station records physical net weights and cash disbursements accurately without generating tax invoices.
- **Unbranded Loose Oil Counter Sales:** Local customers purchasing oil in their own containers or unbranded cans at factory mill gates require fast cash receipts without buyer GSTIN entry.
- **Private Holding Warehouse Stock:** Unprocessed seed lots held in private godowns prior to formal cleaning and commercial grading are tracked independently of statutory inventory.
- **Absolute Statutory Isolation:** All transactions in this station carry the **NG-** prefix, lock the tax rate strictly to **0.0%**, and are completely quarantined from GSTR-1, GSTR-3B, and statutory audited financials.

To prevent accidental cross-billing and maintain strict segregation, the Non-GST station enforces dedicated security gates and visual styling:

- **Restricted Personnel:** Accessible exclusively by accounts with role `super_admin` or `super_admin_nongst`. Standard billing cashiers and supervisors cannot access these routes.
- **Warm Amber / Chocolate Palette:** Navigation items, buttons, and alert headers use amber/chocolate tones (`#B45309` , `#3A1501`) clearly distinguishing them from standard forest-green GST screens.
- **Sidebar Drawer Integration:** Displays a distinct amber section titled `NON-GST BILLING STATION` with shortcuts to `Non-GST Billing Voucher` and `Non-GST History`.

STATION NOTICE: Whenever operating in Non-GST mode, all transactions automatically deduct stock from `Private Godown` and post to the customer's private Non-GST ledger.

Super Admin Only

The primary voucher creation interface for non-tax commercial trade, cash sales, and mandi farmer settlements.

Header Form Controls

- Customer Selector**: Searchable dropdown displaying buyer name and their specific **Non-GST Outstanding Balance**.
- Billing Route**: Target delivery corridor (e.g., Dharmapuri Local, Salem Highway, Namakkal Mandi).
- Godown Selector**: Defaults to **Private Godown** (or **Local Mandi Yard**). Protects statutory tax-audited inventory.
- Pricing Tier**: Radio buttons for **Retail Rate**, **Semi-Wholesale Rate**, or **Bulk Wholesale Rate**.
- Payment Mode**: **Cash**, **Credit / Account**, **UPI / QR**.
- Payment Status**: **Paid**, **Partial**, or **Credit (Unpaid)**.

Line Item Entry & Strict 0.0% GST Engine

- Item Search Autocomplete**: Fast SKU search by code or name.
- Quantity & Rate**: Enter units and rate per unit (₹).
- Discount %**: Line discount percentage (if negotiated).
- + Add to Voucher**: Inserts product into table with zero-tax calculation.

Calculation Rules

- $\text{Net Line Amount} = (\text{Qty} \times \text{Rate}) - \text{Discount}$
- $\text{GST Rate} = 0.0\%$ (Strictly locked)
- $\text{GST Amount} = ₹0.00$
- $\text{Taxable Amount} = \text{Net Line Amount}$

Action Buttons

- Save Voucher**: Validates inputs, creates voucher with permanent prefix **NG-2026-XXXX**, deducts stock from Private Godown, and updates customer Non-GST ledger.

- **Print A4 Delivery Voucher** : Generates formal A4 delivery memo / estimate PDF without GSTIN or statutory tax declarations.
- **Print Thermal Receipt** : Emits 80mm / 58mm ESC/POS receipt for immediate handover.
- **Clear Form** : Wipes form fields for next transaction.

Path: /nongst-history · Route: nongst_history

Super Admin Only

Audit repository containing all historical Non-GST vouchers. Provides live searching, reprinting, and stock-restoring cancellation.

Metric KPI Cards

- **Total Non-GST Vouchers:** Count of issued **NG-** vouchers.
- **Non-Tax Turnover (₹):** Gross monetary value of non-tax sales.
- **Cash Collections (₹):** Realized cash receipts.
- **Outstanding Non-GST Credit (₹):** Unpaid balance owed across non-tax accounts.

Table Row Action Buttons

- **Reprint A4** : Re-opens PDF delivery memo preview for printing or download.
- **Reprint Thermal** : Sends voucher copy to thermal printer.
- **Cancel Voucher** :
 - Prompts for staff cancellation reason.
 - **Immediately restores quantities back into Private Godown inventory.**
 - **Reverses the debit in the customer's Non-GST ledger.**
 - Marks voucher as **Cancelled** in non-tax audit records.

Super Admin Only

High-velocity touch-screen cash register for walk-in retail customers purchasing unbranded loose oil or bulk tins without statutory tax invoicing.

- One-tap product grid with category filter chips.
- Cart steppers ( / ) and price tier switcher.
- Automatic cash tendered calculator and change return computation.
- Prints thermal POS receipt with 0% tax.

To prevent statutory audit contamination, customer accounts maintain two distinct, isolated ledger accounts:

Feature	Statutory GST Ledger	Private Non-GST Ledger
Screen Origin	/billing , /counter	/nongst-billing , /nongst-counter
Voucher Prefix	V-2026-XXXX	NG-2026-XXXX
Tax Bracket	5.0% (CGST 2.5% + SGST 2.5% or IGST 5%)	0.0% (Locked)
Government Portal Filing	Exported to GSTR-1 & GSTR-3B	Strictly Excluded (Internal Only)
Customer Statement	Official Tax Debit Note / Statement	Private Delivery Memo Ledger

Physical inventory is separated between statutory tax-audited stock and private operational stock:

- **Main Godown & Packaging Godown:** Official inventory tracked in statutory tax registers and audited in balance sheets. Deducted exclusively by standard `/billing` invoices.
- **Private Godown & Mandi Yard:** Dedicated storage for uncleaned seed intake from local farmers and loose oil tanks. Deducted exclusively by `/nongst-billing` vouchers.
- **Cancellation Restoration:** Cancelling an `NG-` voucher returns items strictly to `Private Godown`, ensuring official inventory numbers are never altered.

SOP 1: Issuing a Non-GST Delivery Voucher

1. Sign in as `admin` (Super Admin). Navigate to `/nongst-billing`.
2. Verify the top amber alert banner: `*"NON-GST BILLING STATION — All tax rates are locked to 0.0%..."*`
3. Select buyer from `Customer Selector`. Confirm their displayed Non-GST credit balance.
4. Ensure Godown is set to `Private Godown`.
5. In `Item Search`, type SKU name; enter quantity and rate; click `+ Add to Voucher`.
6. Confirm in items table: GST Rate is `0.0%` and GST Amount is `₹0.00`.
7. Click bottom tab **Dispatch Details**; enter vehicle number and driver name.
8. Click `Save Voucher`. System creates `NG-2026-XXXX` and deducts Private Godown stock.
9. Click `Print A4 Delivery Voucher` or `Print Thermal Receipt`.

SOP 2: Cancelling a Non-GST Voucher

1. Navigate to `/nongst-history`.
2. Search for voucher number (e.g. `NG-2026-0015`).
3. Click red `Cancel Voucher` button.
4. Enter staff cancellation reason in dialog.
5. Click `Confirm Cancellation`. System restores quantities to Private Godown and reverses customer debit.

Mobile tablet and smartphone workflows for field procurement agents and mandi operations:

- **Bottom Navigation Integration:** The mobile app switches the primary billing tab to Non-GST mode when logged in under a Non-GST session.
- **More Modules Sheet:** Tapping the three dots displays amber-styled Non-GST billing shortcuts.
- **Bluetooth Thermal Printing:** Pair with 58mm portable Bluetooth printers to issue delivery slips directly at rural collection yards.

CRITICAL COMPLIANCE RULES:

1. Never use the Non-GST station for registered B2B dealers who require statutory GST input tax credit (ITC).
2. Official monthly tax filings at `/reports` automatically exclude `NG-` vouchers. Never manually merge non-tax registers into statutory accounting files.
3. Reconcile physical cash from Non-GST counter sales into a dedicated, separate cash drawer box.
4. Conduct periodic physical stock audits of Private Godowns separately from Main Warehouse audits.
