

STATUTORY FIREWALL & STATION GUIDE

Dedicated Non-GST Station Operational Manual

Complete Screen-by-Screen & Button-by-Button Guide for Isolated Non-Tax Operations. Covers agricultural mandi procurement, local unbranded loose oil counter settlements, private godown isolation, and dual customer ledgers.

Station Designation	Dedicated Non-GST Station (Firewalled from GSTR-1 & Audited Books)
Authorized Access	Exclusively super_admin and super_admin_nongst
Tax Rate Enforcement	Hard-Locked 0.0% GST (Taxable Amount = ₹0.00, GST = ₹0.00)
Voucher Sequence	Permanent Prefix NG-YYYY-XXXX (Completely separate from GST-XXXX)
Stock & Ledger Isolation	Stock strictly deducts from Private Godown; transactions post to Private Non-GST Ledger

STATUTORY FIREWALL GUARANTEE

Under the Central Goods and Services Tax Act, 2017, transactions created within the Dedicated Non-GST Station are completely excluded from GSTR-1, GSTR-3B, e-Way bill portals, and formal tax liability computations. The system enforces cryptographic isolation between commercial tax invoices and local agricultural trade.

1. AGRICULTURAL MANDI PROCUREMENT

Local smallholder farmers selling groundnut pods, sesame seeds, and copra directly at factory gates are exempt from mandatory GST registration. The Non-GST Station allows logging physical weighbridge arrivals, net weights, and instant cash settlements without generating statutory tax invoices.

2. UNBRANDED LOOSE OIL SALES

Village retail customers purchasing unbranded edible oil dispensed into their own containers at the mill gate require rapid cash receipts. The Non-GST counter prints 0% tax delivery memos without requiring buyer GSTIN or statutory E-invoice IRN numbers.

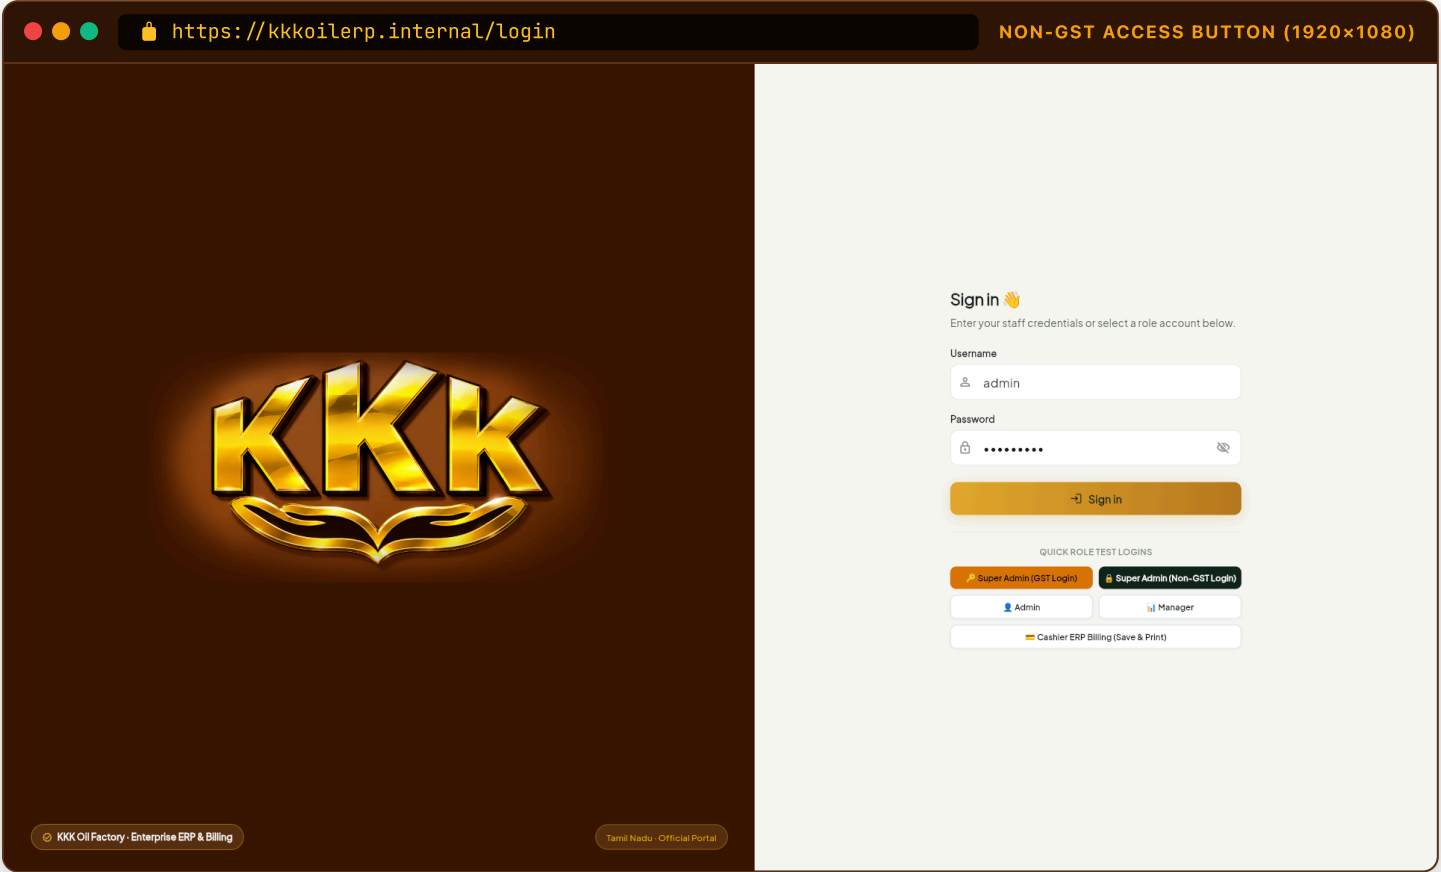

3. PRIVATE GODOWN INVENTORY ISOLATION

All Non-GST vouchers automatically deduct quantities from Private Godown or Local Yard. Statutory warehouses (Main Godown, Packaging Depot) are untouchable from this station, preventing audited stock discrepancies.

4. DUAL CUSTOMER CREDIT ARCHITECTURE

Dealers purchasing both statutory tax-invoiced packaged goods and non-tax raw seeds maintain two distinct ledgers:

- **GST Credit Balance** (Subject to legal tax statements).
- **Non-GST Balance** (Private mandi trading ledger).

DEDICATED STATION TRIGGER

- **Access Button** : Super Admin Click (Non-GST Login)
- **Credentials** : admin / admin123n .
- **Session Flag** : isNonGstMode = Initializes true .

VOUCHER LEDGER AUDIT

- Complete chronological NG- vouchers. audit of all
- Real-time search by voucher number, date, or customer.
- Status indicators for Paid, Credit, and Cancelled.

ROW ACTIONS

- Reprint Delivery Memo
- Reprint Thermal Slip
- Cancel Voucher

INVENTORY ROLLBACK
GUARANTEE

- Cancellation automatically restores quantities into Private Godown .
- Reverses debit in customer's Non-GST ledger.

DUAL CUSTOMER CREDIT BALANCE ARCHITECTURE

Commercial dealers frequently engage in two distinct streams of commerce with KKK Oil Mill:

1. Statutory GST Credit Ledger

Debited by GST-XXXX invoices. Formally reported on monthly buyer statements and subject to legal recovery and audited accounts.

2. Private Non-GST Credit Ledger

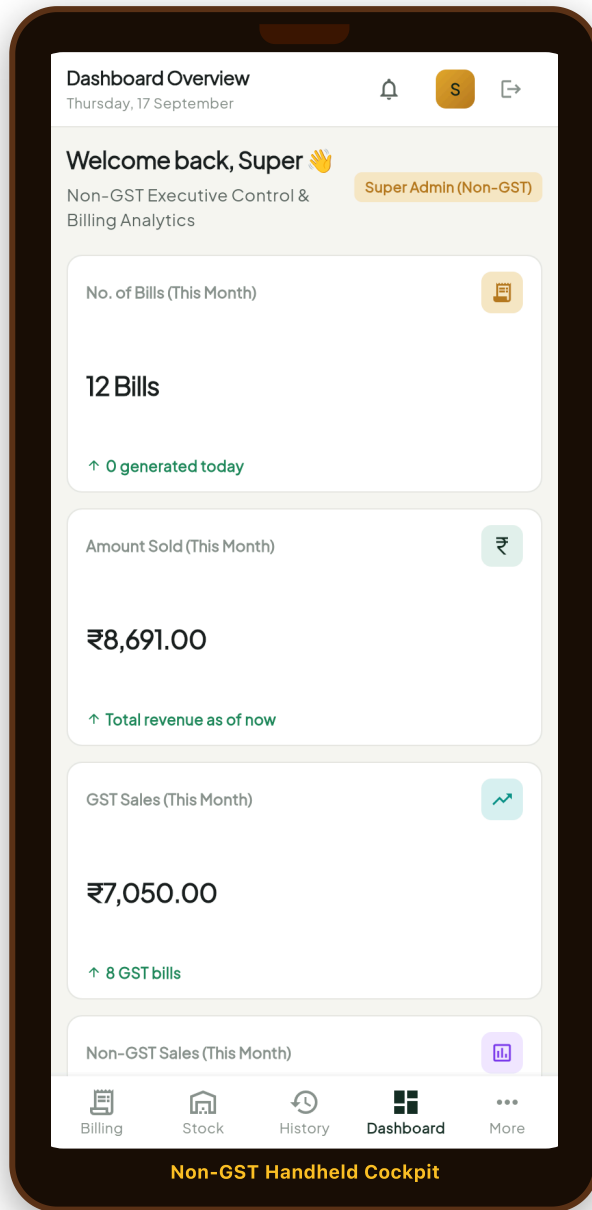

Debited exclusively by NG-XXXX vouchers. Tracks informal mandi trade, loose oil barrels, and local cash settlements privately.

PRIVATE GODOWN INVENTORY ISOLATION

Inventory is partitioned into two air-gapped physical and digital domains:

Warehouse Domain	Accessible From	Audit Impact
Main Godown & Packaging	GST Billing (/billing)	Subject to physical auditor inspection & GSTR-9 balance sheets.
Private Godown & Mandi Yard	Non-GST Billing (/nongst-billing)	Excluded from statutory stock valuation. Tracks raw farm lots.

Safeguard: The system strictly prohibits selecting the Main Godown while in Non-GST Billing mode.

STATION RATIONALE & MOBILE METRICS

Enables factory executives to monitor private mandi trading directly on smartphone.

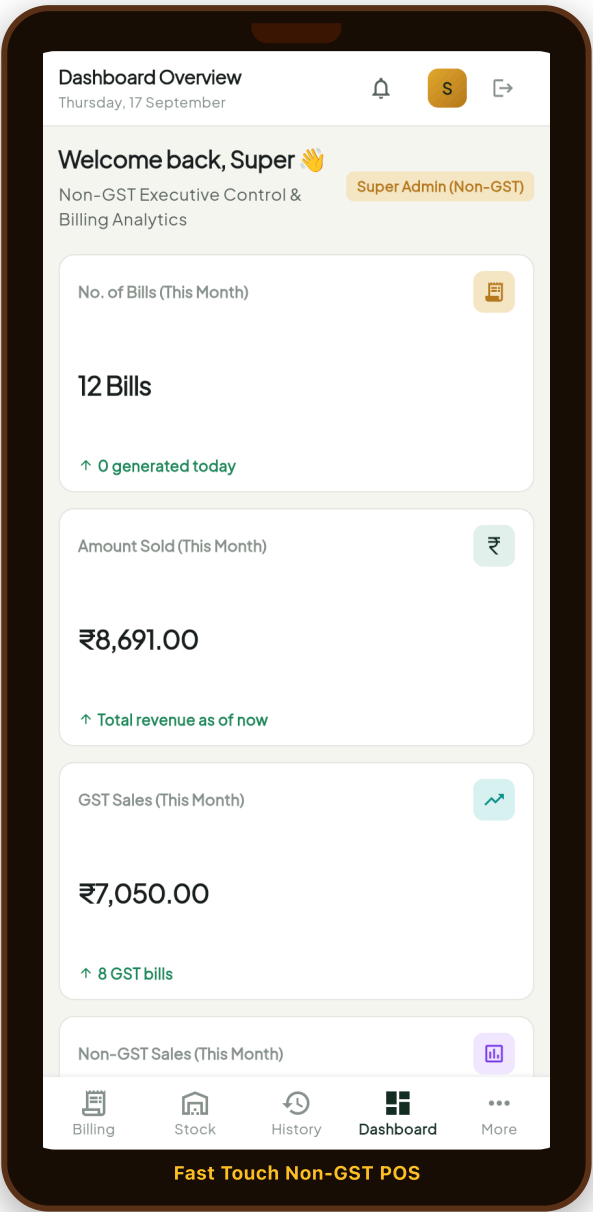

- **Non-Tax Order Count** : Vouchers billed in Non-GST station.
- **Private Cash Turnover** : Total cash receipts from loose oil sales.
- **Quick Station Toggle** : Instant return to Standard GST mode.

TOUCH CONTROLS

Billing Tab (NG-POS)

History Tab (NG-Log)

Station Toggle

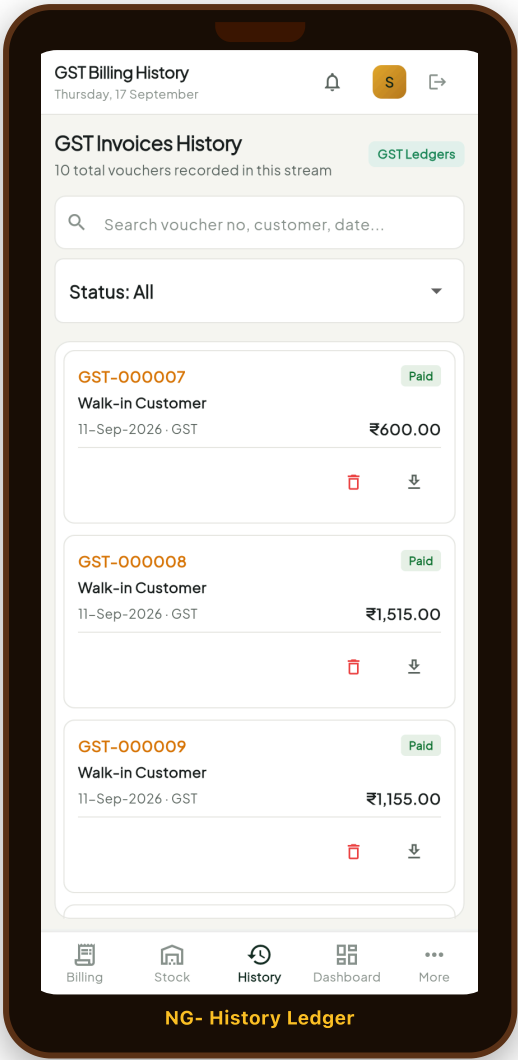

HIGH-SPEED FLOOR BILLING

- Optimized for tablet counters dispensing loose oil at mill gates.
- **Auto NG- Series** : Sequentially increments NG-2627-XXXX .
 - **0.0% GST Locked** : Taxes completely zeroed out automatically.
 - **Private Godown Deduction** : Protects statutory inventory.

ACTION TRIGGERS

- Save & Print
- Retail Rate
- Wholesale Tier
- Clear Form

SOP NG-1: MANDI SMALLHOLDER FARMER SETTLEMENT

1. Verify farmer agricultural exemption under GST Notification No. 12/2017.
2. Record net seed weight at weighbridge and route inward to Private Godown.
3. Create settlement voucher in Non-GST station with zero tax.
4. Disburse cash or rural account transfer. Hand over delivery memo.

SOP NG-2: MILL GATE LOOSE OIL DISPENSING

1. Tare customer's container on electronic scale.
2. Fill requested volume (e.g. 5kg unbranded groundnut oil).
3. Select Walk-in / Cash Customer on mobile POS. Press Save & Print.
4. Hand over thermal delivery receipt with hard-coded 0% tax.

Statutory Compliance Confirmation: The mill's chartered accountant only accesses standard GST reports. Non-GST records remain completely isolated from tax audits.
