FORM FIELDS & CREDENTIALS

- Username** : Staff account handle (e.g. admin , mgr , cashier).
- Password** : Cryptographically verified password with eye reveal toggle.
- Brand Panel** : Deep chocolate `#3A1501` background featuring the official gold KKK Oil emblem.
- State Gate** : Tamil Nadu State Portal official authorization context.

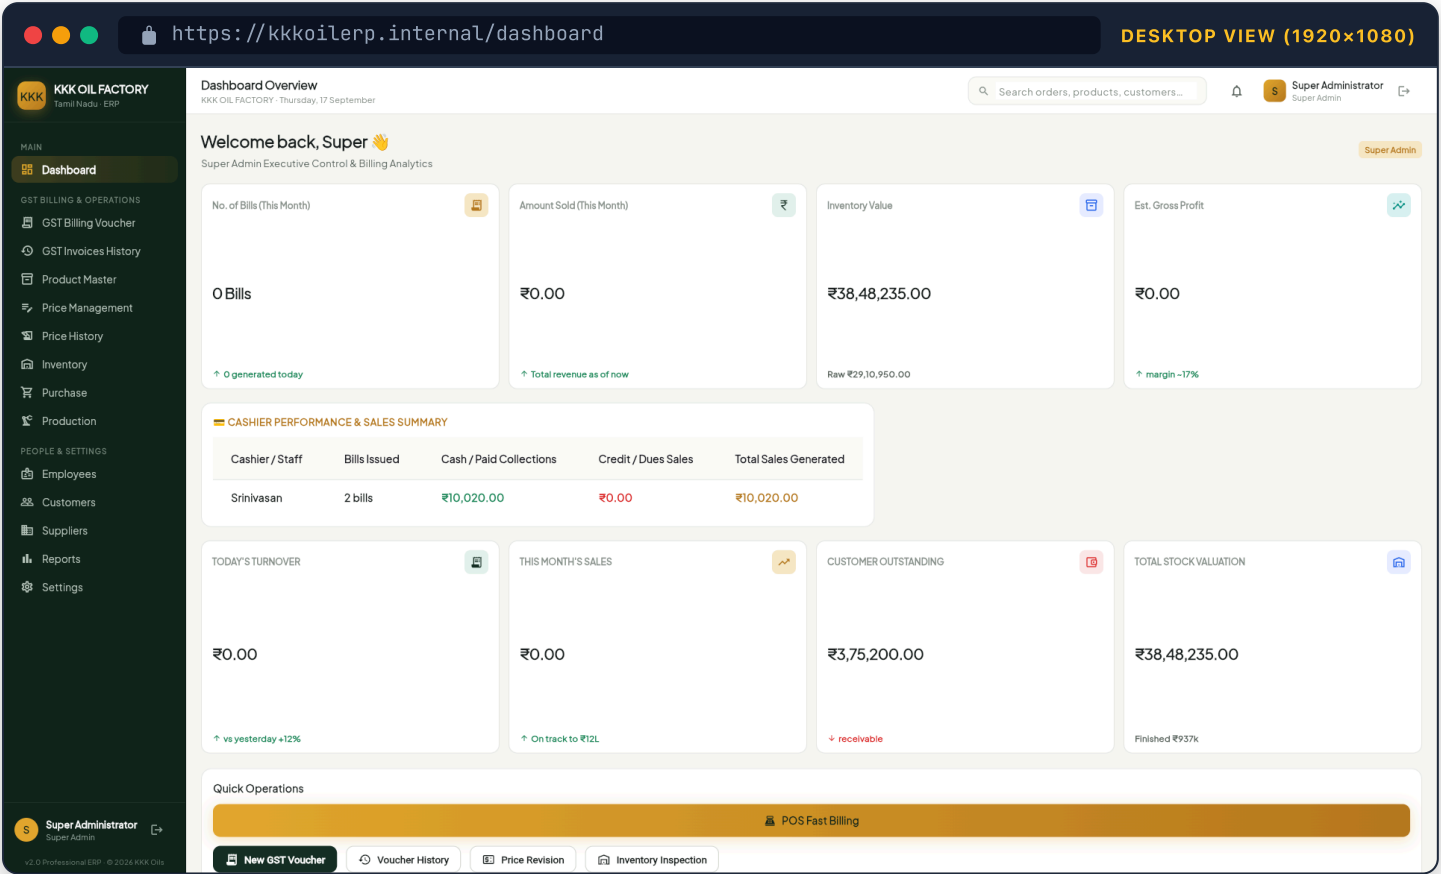

INTERACTIVE BUTTONS & ACTIONS

Clickable controls & action triggers on this screen:

SECURITY RULES & WORKFLOW

- Generates secure local auth token preserving session across reloads.
- Strict role verification prevents unauthorized privilege escalation.

EXECUTIVE KPI METRIC CARDS

- Today's Gross Sales** : Live rupee counter across GST invoices & counter sales.
- Cash Register Balance** : Physical cash on hand in cashier register drawers.
- Bulk Silo Tanks** : Live volume (Ltrs) in Groundnut & Sesame bulk silos.
- Low Stock Alerts** : Immediate alerts for packaged items below safety buffer.

QUICK ACTION BUTTONS

- Clickable controls & action triggers on this screen:
- + New B2B Invoice
 - + Quick POS Counter
 - + Start Milling Batch
 - + Record Seed Inward
 - + Delivery Gate Pass

OPERATIONAL SOP

- Supervisors review morning tank dip levels before starting expellers.
- Managers reconcile cash drawer totals against live billing totals at shift end.

MARGIN ENGINE OVERVIEW

- Base Cost (₹)** : Real-time procurement seed cost + milling processing charge.
- Agency Rate (₹)** : Base dealer rate with lowest margin percentage (e.g. 4-6%).
- Wholesale Rate (₹)** : Semi-wholesale pricing tier for distributors (e.g. 8-10%).
- Retail Rate (₹)** : Maximum counter selling price within legal MRP limits.

ENGINE CONTROLS

Clickable controls & action triggers on this screen:

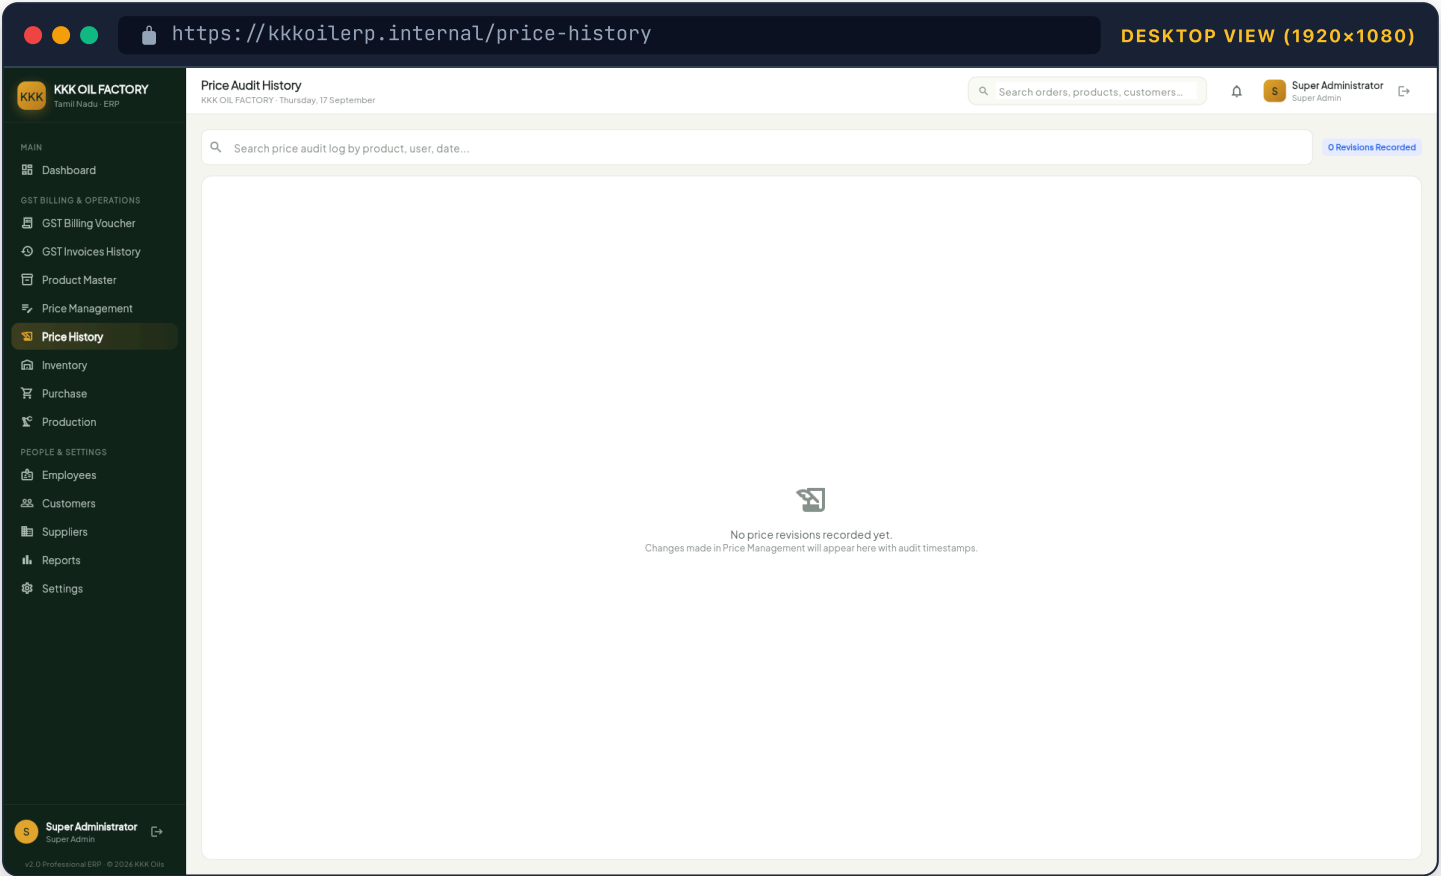

Apply Global Margin %

Save Rate Revisions

Reset to Cost

PRICING SAFEGUARDS

- Restricted to Super Admin and Admin to prevent unauthorized margin tampering.
- All price adjustments generate timestamped records in Price History.

COMMODITY AUDIT LOG

- Mandi Price Tracking** : Historical log of raw groundnut pod & seed market rates.
- Revision Timestamps** : Exact date and time each selling rate was modified.
- Authorized User ID** : Records the administrator who approved the revision.
- Variance Metric** : Calculates ₹ difference between old and new price tiers.

FILTER & AUDIT ACTIONS

Clickable controls & action triggers on this screen:

Filter by Date Range

Export Price Audit

Search SKU Code

INDUSTRIAL DECISION SUPPORT

- Allows management to adjust wholesale price lists as seed procurement costs fluctuate in APMC mandis.

Comprehensive directory of all primary user-action buttons, keyboard hotkeys, and operational triggers across the KKK Oil ERP platform:

Button Label	Location / Screen	Visual Style	Hotkey	Operational Action & Effect	Authorized Roles
Save Invoice	/billing	Gold Gradient	F2	Validates items, deducts godown stock, debits customer ledger, saves voucher.	Cashier, Manager, Admin
Print A4 Tax Invoice	/billing, /history	Blue Outline	Ctrl+P	Generates statutory 300 DPI A4 legal GST tax invoice with QR code & bank info.	All Roles
Print Thermal Receipt	/billing, /counter	Green Solid	F4	Emits 80mm / 58mm ESC/POS thermal receipt for counter walk-ins.	Cashier, Manager
Clear Form	/billing, /purchase	Red Border	Esc	Wipes form fields, clears line items, and generates new sequence ID.	All Roles
Cancel Invoice	/billing-history	Red Chip	—	Prompts cancellation reason, restores stock into godown, reverses debit.	Super Admin, Admin, Manager
+ Add Product	/products	Gold Button	Alt+A	Opens modal to register new oil SKU, unit, HSN, base cost, and rates.	Admin, Super Admin
Save Rate Revisions	/price-management	Green Button	Ctrl+S	Commits new Agency, Wholesale, and Retail margin tiers across all billing.	Admin, Super Admin
+ Start Milling Batch	/production, /dashboard	Gold Solid	Alt+M	Logs machine battery run, input seed quintals, and starts expeller crushing.	Production Supervisor
Close Batch & Yield	/production	Blue Solid	—	Records filtered oil recovery litres, cake bag count, and calculates yield %.	Production Supervisor
Record Tank Dip	/inventory	Blue Outline	Alt+D	Inputs physical dip stick measurement (cm) & updates tank level.	Warehouse Incharge
+ New Seed Inward	/purchase	Gold Solid	Alt+P	Opens weighbridge vehicle intake dialog (Gross, Tare, Moisture, APMC Cess).	Weighbridge Supervisor
Export GSTR-1 Excel	/reports	Gold Button	—	Downloads official GST portal-ready spreadsheet with HSN and B2B invoices.	Super Admin, Admin
Toggle Non-GST Mode	Header / Drawer	Amber Toggle	Alt+N	Switches Super Admin context into dedicated isolated Non-GST station.	Super Admin Only

Keyboard Shortcut Efficiency: Cashiers and data entry operators can complete standard B2B invoices entirely from the numeric pad using Tab, F2 (Save), and Esc (Clear).

SOP 1: MORNING MILL STARTUP & TANK DIP CHECK

- 07:30 AM — Tank Inspection:** Warehouse incharge conducts physical dip-stick measurement across Crude Silo, Filtered Silo, and Settling Tanks.
- Log Readings:** Open /inventory and click Record Tank Dip. Input depth in centimeters; system auto-computes volume in litres.
- Review Safety Buffers:** Verify that finished packaged stock (1L bottles and 15L tins) meets the morning distributor dispatch schedule.
- Expeller Inspection:** Production supervisor confirms seed hopper levels and filter press cloth cleanliness.

SOP 2: HIGH-SPEED COUNTER CASHIER SHIFT

- 08:00 AM — Sign In:** Cashier logs into workstation or mobile POS using individual credentials (cashier).
- Open POS Counter:** Navigate to /counter. Confirm initial cash drawer float (e.g. ₹2,000 in small denominations).
- Scan & Tap Sale:** Tap product tiles or scan barcode. Tap price tier (Retail / Wholesale). Select payment mode (Cash/UPI).
- Thermal Slip Handover:** System automatically triggers 80mm ESC/POS slip. Tender change promptly.

SOP 3: B2B WHOLESALE BILLING & VEHICLE DISPATCH

- Customer Search:** Open /billing. Select registered dealer. Review GSTIN and current credit balance.
- Price Tier & Godown:** Select Agency Rate or Wholesale Rate. Select deducting warehouse (Main Godown).
- Line Items & Tax Verification:** Add products. System auto-verifies intra-state (CGST 2.5% + SGST 2.5%) or inter-state (IGST 5.0%).
- Dispatch Details & E-Way Bill:** Fill PO Number, Vehicle Number (e.g. TN 28 BK 5521), and 12-digit E-Way Bill if bill > ₹50,000.
- Commit & Print:** Press F2 to save. Print 300 DPI A4 Tax Invoice (Triplicate: Original for Buyer, Duplicate for Transporter, Triplicate for Mill).

SOP 4: EVENING CASHIER RECONCILIATION & DAY CLOSING

- Count Physical Cash:** Cashier counts all currency notes and coins in physical register drawer.
- Cross-Check System Total:** Open /dashboard. Compare drawer cash count against Cash Register Balance KPI card.
- Reconcile UPI & Bank Transfers:** Match digital UPI transaction references against daily bank settlement report.
- Manager Shift Handover:** Plant manager approves daily cashier reconciliation slip and locks shift records.
- Automated Cloud Sync:** System ensures all offline vouchers are securely committed to Firestore cloud storage.
